Christmas Classic
Dec. 28-29

Vol. XI No. 4 | Broome Technical Community College, Binghamton, N.Y. | December, 1959

First Semi-Formal of The Year

The annual King Tech semi-formal Dance was held Saturday night, December 19, at 9:00 in the gym. By the time that the paper comes out King Tech will have been crowned, but recognition should be given to the eight senior boys who were chosen as candidates for the King. These candidates were Mike Matias, Bob Garbade, Jack Black, Bob Kelley, Dick Kenney, Gary Pritchard, Brian Mather, and Bob Acker.

King Tech received a $25 gift certificate from Sisson's Department store.

The decorations for the dance were carried out in the King Tech and Christmas themes. Centerpieces consisted of Christmas trees and candles. In front of one of the bleachers bearing the letters of King Tech was the throne, around which was a crown.

Music was provided by the Russ Black Band, and the A Cappella Choir sang during the intermission. Refreshments were served in the student lounge.

Co-chairmen of the event were Sally Norton and Jim Lieberman. Charlene Eldred and Dorcas Williams were on decorations; Nancy Nazak, Norm Furman, and Pat Serven were on publicity; Gary Crounse and Pat Serven were on the refreshment committee; Nancy Rogers and Greg Kovac were on arrangements; and Fran Ash headed the clean-up committee.

NOMA Show by Business Club

Girls Friday and Business Club are putting on a program for NOMA's dinner meeting on Monday, January 4, 1960 at the Starlite Room of the Carlton Hotel.

The program will include a skit, slides, and flip charts along with an orientation period on Broome Tech's Business Department.

The people working on the program, under the direction of Miss Katusak, are Nancy Nazak, Sally Norton, Carol Roma, Marilyn Dunn, George Andrejko, George Noyes, and Paul Sents.

Filmtime-B.T.C.C.

Students are able to see films in the Little Theater during their lunch hours. They are shown Tuesday and Wednesday every other week. There is one scheduled for December 22 and 23 from 11 a.m. to 1 p.m., and it is shown continuously during these two hours. The title is "Toward the Unexplored."

These movies are the Sunday evening television series, The Twentieth Century, which is sponsored by the Prudential Insurance Company of America. The Twentieth Century tries to highlight memorable events and personalities of our times.

Breakfast Held

The Newman Club of Broome Tech held their 2nd annual Communion Breakfast on Sunday, December 13th at the Town and Country Restaurant. As our

Parts Open for "Guys and Dolls"

GUYS AND DOLLS, a musical comedy based upon Damon Runyon characters, will be presented at Broome Tech, March 24, 25, 26, and 27, 1960.

Jerry Graham, popular WNBF-TV personality will direct the staging, and Charles M. Greene of the Broome Tech staff will be musical director. The CIVIC THEATER of Binghamton is sponsoring the show as part of their regular theater season.

Lead parts are open to Broome Tech Students, members of the Civic Theater, and anyone in the community. This is a fine opportunity for Broome Tech students to begin to work with a dramatic organization. Not all of the character parts require solo singing and there are many fine parts suitable for students with a little background in drama.

If you are interested in reading for a part, or working in any other area of the show, such as advertising, costumes, properties, tickets, lighting, set-construction, or painting please contact Mr. Greene.

Don't make this Christmas your last Christmas. Drive safely over the holidays.

Music Convocation On Tuesday

The Broome Tech A Cappella Choir will present the Annual Christmas Convocation on Tuesday, December 22, 1959, in the College Gymnasium at 11:00 a.m. The choir, which consists of 35 members-faculty and students, will sing the old favorite "Twas the Night Before Christmas" in a light and humorous fashion along with "The Christmas Song", "Po' Little Jesus", "Silent Night", and "Go Tell It On the Mountain". Featured soloists for the A Cappella Choir will be Constance Pollock, David Fergus, Axford Beagle, Virginia Greene, and Brian Mather.

Joining the A Cappella Choir in its presentation will be the College Choir. They will sing "Jesu, Joy of Man's Desiring", "Rise Up Early in the Morning", and "O Holy Night."

* * * * * * * * * *

The A Cappella Choir provided intermission entertainment at the King Tech dance with Christmas selections.

* * * * * * * * * *

Members of the College Choir went caroling on December 20 at Binghamton State Hospital, Our Lady of Lourdes Hospital, Wilson Memorial Hospital, and City Hospital. The officers of the College Choir provided a "Warming Up Party" at the Student Center afterwards for all carolers, with refreshments, and dancing.

The College Choir members are expecting Blazers after Christmas.

The officers of the College Choir would also like to recognize the following members who have had perfect attendance for the first semester.

They are David Burdick, Thomas Campion, Robert Couse, Janet Clark, Marilyn Dunn, Clyde Getman, Robert McAulliffe, Joan Menten, Nancy Nazak, Angelo Romeo, William

BEAR WITNESS, B.C., TO THE DISCOVERY OF SANTA CLAUS

Merry Christmas

Editor Supports Faculty Resolution

We, as students at Broome Tech, feel that we need and would like to keep the high standard of teaching that we have had in the past. To do so, it appears that it would be wise to have a merit system for raising the teacher's salaries. Under the system to go into effect in January, each instructor's salary is raised a fixed amount each year regardless of ability. However under the merit system, each instructor's salary would be considered separately.

This would therefore insure a reliable teaching staff, because the instructors would have a goal to work for.

Under the merit system those teachers who have earned degrees, or who have taught for a considerable number of years, or who have distinguished themselves in some other manner would-and should-receive more of a pay increase.

If industry works on a merit system, why shouldn't the teachers who are training us students to go out into industry also be paid according to a merit system?

We also feel that since the Board of Trustees of the college are more closely associated with the teachers that their opinions should carry more weight concerning the policies of the faculty than the Board of Supervisors of Broome County. The Board of Supervisors are more closely concerned with non-professional people. It should be recognized that professional and non-professional people cannot be treated in the same manner concerning pay raises and general policies.

At present we believe that we have a very good teaching staff, but we fear that many teachers will not again accept positions at Broome Tech unless something is done.

"It's the Talk of the Town..."

Our cafeteria, is "the talk of the town". For those of you who have not heard about this it refers to an article in the Binghamton Press on December 5. The headline read as follows:

TECH PAPER BRANDS CAFETERIA 'PIG PEN'.

A similar article appeared in the Binghamton Sun on December 7.

The editorial staff of this newspaper has received a few unfavorable comments, as might be expected, but one must realize that Broome Tech is supported partially by the Broome County taxpayers, and they have a right to see how their money is being used.

As Broome Tech students we, at the present time, can't be too proud of the cafeteria. The Student Council has sent a resolution to President Tyrrell that he close the cafeteria at his discretion. This was presented to him, but at the time that this paper goes to press, no definite action has been taken.

The staff would like to thank the person who put up the signs in the cafeteria. We would appreciate it if he would make himself known to someone on the staff so that we could personally thank him. After the signs had been up a couple of days, one person was heard to comment that he was going to leave his dishes on the table, but he noticed the signs, so he took his dishes to the window.

It might take a five-year old two weeks to learn that he shouldn't leave his play toys in the middle of the floor. Therefore, it shouldn't take a person of college age more than two weeks to learn a similar lesson!

How do you like the scenery.

Opinions expressed in this paper are the opinions of the Editorial Staff of Tech Talk only.

Letters to The Editor

This is in reference to your editorial on closing the cafeteria. I do not agree with your suggestion at all. It sounds like something the military would suggest, in the policy of mass punishment for the ignorance of the few. It is definitely a negative approach to the problem.

I would suggest that you take a trip to some of the neighboring colleges and compare their cafeterias with ours. I am sure that ours, in comparison, is actually very neat.

There will always be that 10% that will not be neat regardless of the threats or punishments. No matter what you say, the problem will not be solved.

The best solution I would suggest is to praise those who care enough to try to keep it clean, and not criticize those who will never improve.

Just be glad the cafeteria is as neat as it is and not worse.

Editor's note: The editorial was not written until other college cafeterias had been checked.

* * * * * * * * * * *

The Tech vs Tyler game proved that we not only have a top team, but we also have the spirit to go along with it. With this kind of moral support, our team can be victorious throughout the season.

Our players are doing their best; not it is up to us students to do our share by attending the games and cheering.

Nurses Confidential

by Judy Leader

Twenty-one student nurses assisted at the dissection birth of two kittens performed by Miss Giordano in Anatomy Lab. Going on a "French Theme" we appropriately named the mother cat "Fifi" and the two male kittens "Pierre" and "Jacques." This has been only one of several projects we have done that has made Anatomy Lab more interesting. Breaking open chicken eggs in the study of embryology, examining beef joints, and the dissection of the pig fetus are a few.

And now back at the hospital. For Halloween all the student nurses at City Hospital prepared for a costume party. There seemed to be a dominance of beatniks with a few witches, cats, laundry bags, and chorus girls. Martha Washington was there (in costume of course) too. But for some reason, George was unable to come. The party was a success and fun for everyone.

All the Student Nurses are now practicing for a Student Faculty Party that will be held at the hospital this month. We are responsible for entertainment which will be humorous to say the least. Also we're looking forward to the Nurses' Christmas Dance that will be held in the Arlington Hotel in December.

To sum it all up, our dormitory and college life is hardly inactive and never dull.

ALUMNI NEWSLETTER

From the Office of Dick Baldwin

ALUMNI DINNER-DANCE SUMMARY

About 400 persons attended the first Alumni Dinner-Dance on November 21 at St. John's Ukrainian Hall. The social hour started things off at 6 o'clock. A family-style dinner featuring turkey and halupki was served promptly at 7 o'clock. Because the election of officers is now for a two-year term, the present officers have still another year to serve. All the officers were on hand, including President Jack Kester, Class of 1957; Vice President Art Zumbach, Class of 1956; Treasurer Judy VanBrunt, Class of 1958; and Secretary Anne Kucer, Class of 1950.

Kester presided as master of ceremonies at the dinner and, in addition to making a few brief remarks himself, introduced President Tyrrell and two members of the Board of Trustees, Darwin R. Wales, Chairman, and Bernard H. Chernin, Vice Chairman, all of whom delivered brief addresses.

Kester outlined several objectives of the Alumni Association for the coming year: (1) to expand the active membership to the more than 10% of the total number of graduates who are now members (President Kester pointed out that dues are only $3 a year and that upon payment of the annual dues, an alumnus receives a copy of Tech Talk each month which includes an alumni column.); (2) to sponsor at least two or three $200 scholarships for Broome Tech freshmen; (3) to sponsor additional alumni social affairs that would bring the Broome Tech graduates together more frequently than in the past. Kester, as did all of the speakers of the evening, commended general chairman John Pavlik and his committee for the excellent job they did in making arrangements for the dance and encouraging alumni to attend.

President Tyrrell expressed gratification in seeing such a large turnout of alumni and expressed hope that this trend would continue, even though it might mean that the group would soon have to outgrow St. John's Hall as they did the Broome Tech cafeteria. The chief point of President Tyrrell's talk was that the college would now increasingly call upon graduates of the college for support in the community and particularly with the Board of Supervisors. President Tyrrell stressed that many of the alumni attending already had children who would someday wish to go on to college including Broome Tech and that additional buildings would have to be constructed and additional teachers hired throughout the nation if all who wish to attend college and were qualified to attend were going to be able to attend.

Each of the speakers emphasized the important role that the alumni can now play in supporting Broome Tech in the community. Mr. Chernin emphasized that many different agencies throughout the community are competing for the tax dollars controlled by the Board of Supervisors. He commended the Supervisors for being a progressive and, at the same time, economically conservative group. He implied that supervisors would appreciate the opinions of their constituents including Broome Tech graduates.

Mr. Wales lauded the assembled graduates as "a very fine looking assembly of young Americans". He pointed out how satisfied employers had been with the product turned out at Broome Tech and was sure that this would be increasingly so in the future as the college grew in prestige. Mr. Wales also commended President Tyrrell and his staff for their devotion to Broome Tech throughout the years and for their part in establishing the college as an important institution in the community. Mr. Wales also pointed out that in the future some of the alumni should certainly be looking forward to serving on the Board of Trustees, and he thought that when that came to pass that this would be a very significant development in the community.

The Four Knights provided music for dancing from 9 p.m. until 1 a.m. All in all, it was a very successful evening and the Alumni Association feels that this annual affair will gain in popularity each year.

* * * * * * * * * * * * * * * *

1960 MEMBERSHIP DRIVE COMING UP

A letter will be sent out this week to all alumni urging them to join the Broome Tech Alumni Association this coming year. The dues are only $3 for the year and should be sent to Judy VanBrunt, Treasurer, 127 Iris Drive, Sunrise Terrace, Binghamton, New York.

A copy of Tech Talk is sent to members of the Alumni Association. Therefore, those of you who are now receiving Tech Talk each month will not continue to receive it unless you send in your dues for 1960. We hope you have enjoyed our Alumni Newsletter column and will want to read more about your former classmates in future issues of Tech Talk.

* * * * * * * * * * * * * * * *

CLASS NOTES

1959 - Gene Battaglini, Business Technology, is attending Oneonta State Teachers College. Gene, who was one of Broome Tech's finest ball players, is now the bell-wether of the Oneonta State varsity basketball team which, at this writing, is undefeated this season.

Alumnus Becomes Plant Manager

Howard S. Rothe, a 1949 Chemical Technology graduate of Broome Tech, was recently appointed manager of National Gypsum Company's Newburgh paper mill.

With the appointment, the 29-year-old Rothe, who has been acting manager at Newburgh since July 1, became National's youngest plant manager. Mr. Rothe joined National in 1952. After two years service in Korea, he rejoined the company as a management trainee in the Pryor, Oklahoma, paper mill. He later served as tour foreman at Pryor and as tour foreman and project engineer at the company's paper producing facility in Anniston, Alabama.

While at Broome Tech, Howard, who went on to receive his four-year degree from Syracuse University, was the catcher for two years on the varsity baseball squad. The 1949 team on which he played had a 10 and 2 record, one of the best in the Hornet's history.

SUPER SENIORS

PAT CONNORS

The Engineering Physics students should take great pride in this Super Senior. He is Pat Connors, graduate of Binghamton North High School.

This bright student, who turned out an average of 4.0 at the completion of one of last year's terms, was drummer for a dance band and concert band at North. He also served on Student Council while in high school, and participated in intramurals.

At Tech, he is an active member of Newman Club, and represents the club at Student Council meetings. He also took part in a Newman Club convention at Oswego this year. His talented taps keep the beat for Tech's dance band also.

Pat was very influential in rallying the students to contribute to the United Fund effort.

Last summer found Pat as a lab technician at Ozalid, where he put to good use the knowledge gained at Broome Tech, whose instructors and facilities he classes as excellent. His hobbies of fishing, hunting, and classical music will probably suffer when he takes on the arduous task of completing his education at the University of Rochester in the physics and astronomy department.

GINNY BLAIR

This month's Super Senior is little Ginny Blair, a D.H. Ginny is Vice President of her class and is head of circulation for Tech Talk which means that she's the one responsible for seeing that we get our newspapers when they come out and sending out the papers to the Alumni and co-op students.

Besides being active in her class and on the Tech Talk staff, Ginny has been on the Dean's List every term which is indeed an accomplishment because she also works at Kresge's. If Ginny isn't cleaning someone's teeth in the clinic or working, she probably is busy working at her hobby which is ceramics.

Ginny is engaged, and the lucky fellow is Burt VanScoy. After graduation, she plans to get married and to work in a private dentist's office.

F.D.R. dj

Paul Anka currently has the fastest moving record in the country in his ABC Paramount recording of "It's Time to Cry" and with this hit solidifies his position as one of the biggest stars in the musical field.

Guy Mitchell has his first record in the best seller lists in a long while in a snappy tune entitled "Heartaches by the Number."

Bobby Rydell, a young man with a bright future, still has an unbroken string of one hit after another. His latest being "We Got Love."

Freddie Cannon has a swinging rendition of "Way Down Yonder in New Orleans" on Dick Clark's Swan lable. Did you ever notice that, except for Connie Francis, most of the big, hit recordings are done by men?

Songstress Toni Fisher's latest effort on the Signet label is called "The Big Hurt," and is doing well across the country.

Santo and Johnny have followed up their popular "Sleepwalk" with "Teardrop," a very pretty thing that may do better than its predecessor.

Johnny Cash's million seller of "I Walk the Line" has been put into instrumental form by Don Costa, the highlight of the tune being a great guitar solo.

Two other instrumentals that are currently on most of the best-seller charts are: "The Clouds" done by the Spacemen, and Bill Black's "Smokie, Part II." "The Little Drummer Boy," by the Harry Simeone Chorale, has been released again this Christmas, and as last year it is very popular and oft-played.

Best Bets To Be Sure Sellers:

1. "Smooth Operator" Sarah Vaughn
2. "It's Time to Cry" Paul Anka
3. "Pretty Blue Eyes" Steve Lawrence
4. "If I Had a Girl" Rod Lauren
5. "Big River" Buddy Brenan Quartet and/or Ernie Freeman

Tops in Profs

Introducing Mr. Robert J. Cann, December's Tops In Profs. A member of Broome Tech's faculty for the past four years, Mr. Cann teaches in the Business Department. Among the various subjects he teaches are Business Math, Advertising, Office Management, Finances, Credit and Collection, and Industrial Management. He also teaches in the Extension Division and at I.B.M.

Mr. Cann graduated from high school in Lynn, Massachusetts, and received his B.S. of Ed. at Salem Teachers' College also in Massachusetts. He received his M.A. at New York University and now is matriculating to receive his Ed. D. at New York University.

Before coming to Broome Tech, Mr. Cann taught at Lakes Regions College, Soconia, N.H., Packard Junior College, N.Y.C., Lyconing College, Williamsport, Pa., and Fairleigh Dickinson College in East Rutherford, N.J.

Mr. Cann was the co-author of Principles of Retailing published in 1955. In 1960 another book Principles of Advertising will be published, co-authored by him. He has also written several other articles published in educational magazines.

Mr. Cann is well known around the campus as a director of the Faculty-Student Association, financial advisor of Student Council, and a member of the Accreditory Report committee. Also, he is an advisor to the Business Club which he founded.

Outside school Mr. Cann has many interests. Among these is his family. Mr. Cann is married and has three children. His wife is a part-time art teacher in grades four, five, and six at Greene, N.Y. Mr. Cann's children are ten year "Mel", nine year old "Robin", and three year old "Jay-Ellen." Mr. Cann enjoys taking movies of his family.

Painting and general creative art are other interests of Mr. Cann. Also, he likes gardening and reading. Mr. Cann is a member of the National Sales Executive Club of Binghamton. He is also a member of other educational organizations. Mr. Cann certainly deserves the title of Tops in Profs anytime.

Club News

TECH WIVES

The Tech Wives has for its members the wives of the married students attending Tech. The group meets once each month to share their common interests: "no money and a husband in school" as one member put it.

The Tech Wives had a dinner meeting during November and on December 16 went caroling at the Broome County Home, ending the evening with a party in the faculty lounge.

If the wives of any students have not been contacted by the group and are interested in the meetings, they may contact the president, Mrs. Lillian Grissino, 1-9 Saratoga Terrace.

Other officers of this year's group are Mrs. Jackie Pieszala, vice-president; Mrs. Cele Nabinger, treasurer; and Mrs. Marion Richards, secretary.

CITADEL

Mrs. Wynette Gregg, Coordinator of Audio-Visual Aids, will be the advisor for the 1960 Citadel.

Primary Results

Final voting on the freshman class officers was Monday, December 21.

The candidates for president of the class of '61 were Lyle Benson and Ralph Davenport. Leon Klev and Carl Strauss sought the office of vice-president. For class secretary, there were Lorraine Knapp and Marlene Reinhart, and for treasurer, Pat Serven and Janice Wiggins.

The class officers are responsible for the orientation program for the incoming freshmen in the fall of 1960.

Advisors for the freshman class are Miss Evelyn Katusak and Mr. Gino Canale.

How Smart Are You?

In one of the old issues of Tech Talk we found the following which was solved by a freshman. Can you do the same?

The answer to the problem will be printed in the next issue.

A car weighing 4,000 pounds is traveling at 64 mph in a northeasterly direction; a boy weighing 150 pounds is running 2 mph in a westerly direction. The car strikes the boy at 3:00 p.m. and the temperature is 37 degrees Centigrade.

1. What were the extent of the boy's injuries if he was taken to the City Hospital at 4:30 a.m.
2. Was it a dirt or concrete road? (Slide rule accuracy acceptable.)

NEWMAN CLUB
(Cont'd from Page 1)

guests we had President and Mrs. Tyrrell, Mayor John Burns, Sister Irene and Sister Mary Alice. Following the breakfast, Sister Irene, administrator of Lourdes Hospital, gave a short talk on the life of Mother Seton and proper behavior for college students. Mayor Burns, President Tyrrell, and Father McNerney, chaplain of Newman Club, also addressed the group.

Kelly Top Accounting Sr.

Robert Kelley, Business senior, was presented a copy of the Accountants Handbook as the outstanding accounting student this year at Broome Tech.

The award was made by the National Association of Accountants. Bob was chosen by the Business Department according to criteria set down by the National Association. This is the second year this award has been presented to a Broome Tech student.

The award was presented on December 17 by Mr. Newton of the Business Department and Mr. L. Burge, Publicity Chairman of the N.A.A. and a member of the Endicott-Johnson accounting department.

Holiday Reading

The Broome Tech Library will be closed during the Christmas Holiday, from 4:30 p.m. Wednesday, December 23 to 8:00 a.m., Monday, January 4.

If you have time to read during the vacation, why not take home some of the new additions to the Broome Tech Library.

THE OLD MAN AND THE SEA - Hemingway
THE SOUND AND THE FURY - Faulkner
PARKINSON'S LAWS - Parkinson
AMUSEMENT IN MATHEMATICS - Dudeney
CANTERBURY PUZZLES - Dudeney
FUNDAMENTALS OF TELEVISION ENGINEERING - Glasford

WNBF to Broadcast 6 Home Games

This year for the first time in the history of Broome Tech Basketball, 6 games will be broadcast on WNBF with Tom Denim doing the play-by-play. So if you can't make it to the game personally, tune into WNBF.

Two games that have been already broadcasted are:

Baptist Bible Seminary
Tyler (Texas) Jr. College

The following games will also be broadcasted:

Christmas Tourney - Dec. 28
Alfred Tech - Jan. 16
One game is undecided.

Hornets Meet Team of Ex-Coach

On Friday, Dec. 18, Broome Tech traveled to Troy, N. Y. to play the Trojans of Hudson Valley, in an Empire State Conference game.

The Trojans are coached this year by Don Schmidt. Last year Schmidt was Coach Dick Baldwin's assistant while with the Hornets and this represents the first time in league history that an assistant coach has been pitted against his former head coach.

The Trojans are a much-improved ball club over last year's and figure to give the Black and Gold a very tough time in the Troy Armory.

Cat-Napper Duane Brown

MUSIC

(Cont'd from Page 1)

Serafini, Alice Srnka, Bruce Stoughton, Ronald Swingle, Shelly Edson, Rosemary Lynch.

The Tech Tone Masters met for a Spaghetti Dinner Dec. 12 at Danny Celestes. Afterward they presented a program for the E.J. Chorus members at their Christmas party at Saint John's Hall. Featured on the program was Bruce Hamilton, a Mech. Frosh, who sang a group of Folk Songs. Bruce, incidentally will be a part of the entertainment for Candlelight Cafe next winter.

First Annual Christmas Classic December 28-29

Broome Tech this year is hosting the first annual Broome Tech Christmas Classic December 28 and 29. First round semi-final pairings will find Erie Tech of Buffalo playing Joliet Junior College of Joliet, Illinois at 7:30 Monday night, December 28, while the host Hornets will play always powerful New York City Tech in a 9 p.m. nightcap.

A 5-man All-Star team will be selected by a panel of sports people and coaches and these five will be awarded individual trophies. Gold basketballs will also be awarded to members of the winning team while team trophies of varying sizes will go to all the participants.

Joliet is coached by A. A. Wills and always presents a fast-breaking, well-balanced attack. Last year in a pair of double-headers Joliet knocked off both Erie and Broome and on the basis of their perennial national ranking figure to win the tournament.

Also strong will be New York City Tech, coached by Gerald Anderson, which have won 142 games out of 181 and which have three times been the winner and

Coach George Killian of Erie again has on hand one of the strongest teams in the region. Back from last year's squad which was a co-champion of the Empire State Conference, are Mr. Outside and Mr. Inside, 5' 9" Mark Ungerer, a deadly set shooter, and 6' 4" Andy Frauenhofer.

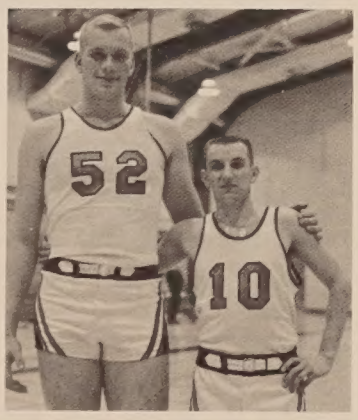
To abet these two in the starting lineup are three outstanding freshmen: 6' 6" James Zern, 6' 4" Paul Kowalski, and 6' John Wojick. Wojick an All-High School selection from Buffalo, is probably the real standout of the newcomers. He is a fine jump shot shooter and a rugged board man.

twice runner-up of the NJCAA Regional Juco Tournament. City is also a nationally-ranked team and have excellent height to throw against the Hornets in a 6- 6", 205 lb. freshman, Arthur Rucks. 6' 5-1/2" Roger Flore will also pick up some of the rebounding burden. Also on hand will be three seniors: 6' 3" Leroy Curry (the National Juco high jump champion); 6' 4" Bill Bethea; and 6' 1" Leroy Saunders.

Chem '61 Top in Intramurals

The Chemical Tech. Freshmen took the lead in intramural competition from the Electrical Freshmen, with a 1st place showing in the Badminton Intramurals. The competition will stiffen as basketball starts a schedule with 15 teams. Most of the games will be scheduled at noon time (11-1).

Team	Intramural Points	(Breakdown) Football	Badminton
Chem. Frosh.	166	80	86
Elect. Frosh.	164	140	24
Pre-Tech	156	105	51
Eng. Phys. Frosh.	146	95	51
Mech. Frosh.	94	30	64
Eng. Phys. Sr.	73	0	73
Mech. Sr.	67	45	22
Constr. St.	60	60	0
Chem. Sr.	22	0	22



DUNKERS SUPREME--6- 7" Bob Garbade and 5' 6" Mike Matias.

SPORTS FACT: Thirty-seven athletes who have attended the University of Alabama in the last 40 years have played major league baseball. That is about one per year.

by Dick Franey

To start with I won't give much favorable comment on that B.T.-Griffis thing. I still refuse to call that a basketball game. If it was boxing, the referee would have called it no contest. It looked to me like it was the first time the Griffis five ever saw a basketball. Comments heard in the crowded (I use the term crowd loosely), "What do they do (B.T.), book a team like this so people will think they are good."

Ed. Note: For the answer to this see the results of December 12's game. I, as well as many others, also thought that the brand of officials was at a low ebb. That thing was enough to scare off even the most ardent basketball fan.

WNBF is now broadcasting the Broome Tech home games. Tom Denim is doing a fine job handling these games on the air.

Last Tuesday night (Dec. 8) the men from the Baptist Bible Seminary dropped in to display their talents; however, it was all Broome Tech to the tune of 92-60. Broome romped without the services of Big Bob Garbade who is on the injured list. Terry sparked the B.T. attack with 20 points. Dick Kenney had 18 and "Butch" Mariani had 13. Decker led the visitors with 16 points.

Oneonta State's JV's came to town to play in the preliminary, they beat the Seminary JV's 79-36.

Then came Saturday, December 12 and the tall wandering Texans, --Hurrah! Basketball finally comes to Broome Tech. Tyler, twice junior college champs, just couldn't get started. Fresh (or tired from Friday night's victory over Erie Tech at Buffalo (this was the only Erie loss on their home court), the Big Texan's were at a loss to score against Baldwin's Mambo defense. John Lake (Binghamton Press) calls Broome Tech #1 on every opponents "most feared" list. Paced by George Zurenda with 19 points: Wendy Terry, 18; Bobby Williams, 11; and Dick Kenney, 10; B.T. was just too much.

Tyler's much talked about 6' 10" Pete Petrou, from Everett, Mass. had only 10 points against the terrific B.T. defense, 4 of these coming from the foul line. A former C.Y.O. (Binghamton) star commented "They (B.T.) couldn't do anything wrong."

Tyler's only 2 losses prior to their game at B.T. were a one pointer to Carson-Newman and a 14-pointer to the Texas Aggie Frosh.

Finally with talk of Hutchinson, Kansas in the air, we wait for the Christmas tourney with New York City Tech, Erie Tech, Joliet, and Broome Tech.
